

- On auto mode, it goes to position without operator intervention.
- Option to work with SD Card.
- 1250 different cutting length memory capacity.
- Has ethernet connection.
- Cutting file transfer from computer.

- High cutting quality and ease of operation.
- Adjustable saw progress speed.
- Horizontal profile clamping and practical piston place adjustment system.

General Features

- Precise cutting of PVC profiles between 22,5°-90° outer angles.
- Right feeding unit and automatic saw safety cover.
- Double clamping system on both heads to fix the profile.
- Support plate between two heads to support the profile.
- Special design vacuum system to cut without depositing sawdusts on heads.
- Profile height measurement system.
- Frontal and top clamping systems.
- Precise and fast measure positioning thanks to brake system.

Optional Equipments

- BY 100 Barcode Printer
- E 100 Barcode Printer (ethernet)

- KP 100 Cutting Program
